- Edf. Regatta Life, Porfirio Herrera #6.
- Santo Domingo, Republica Dominicana.

Experiencia Profesional

2019 - ongoing

Free-Lancer

Worked with a variety of different needs from ranging from front-end & back-end programming, to cross platform hybrid mobile apps with Web based Technologies.

2019 - ongoing

Supervisor

Supervised the production floor, productivity of said floor using KPI's, and managed compilation of information. Which resulted in a 23% productivity increase overall.

2018 - 2019

Project Manager

Managed and handled personnel, honing individual and collective talents to ensure productivity increase and metric completion. designed and coded internal work chat.

Work Done

Frameworkless SPA

A frameworkless SPA, made using vanilla-router, Handlebars and a little JQuery.

Rack-Chat

Slack clone made with firebase for managing and saving messages/media. Firebase also takes care of Authentication for newly created users, Frontend was made with Semantic UI React.

Svelte Portfolio

My own portfolio, this was coded using Svelte, svelte-spa-router with a styling of my own css combined with svelte-materialify. The information is handled by a simple Nest.js Api which is hosted on Heroku.

Ionic Pomodoro Timer

A pomodoro timer made with Ionic & Angular, this was one of the first apps I made with Ionic.

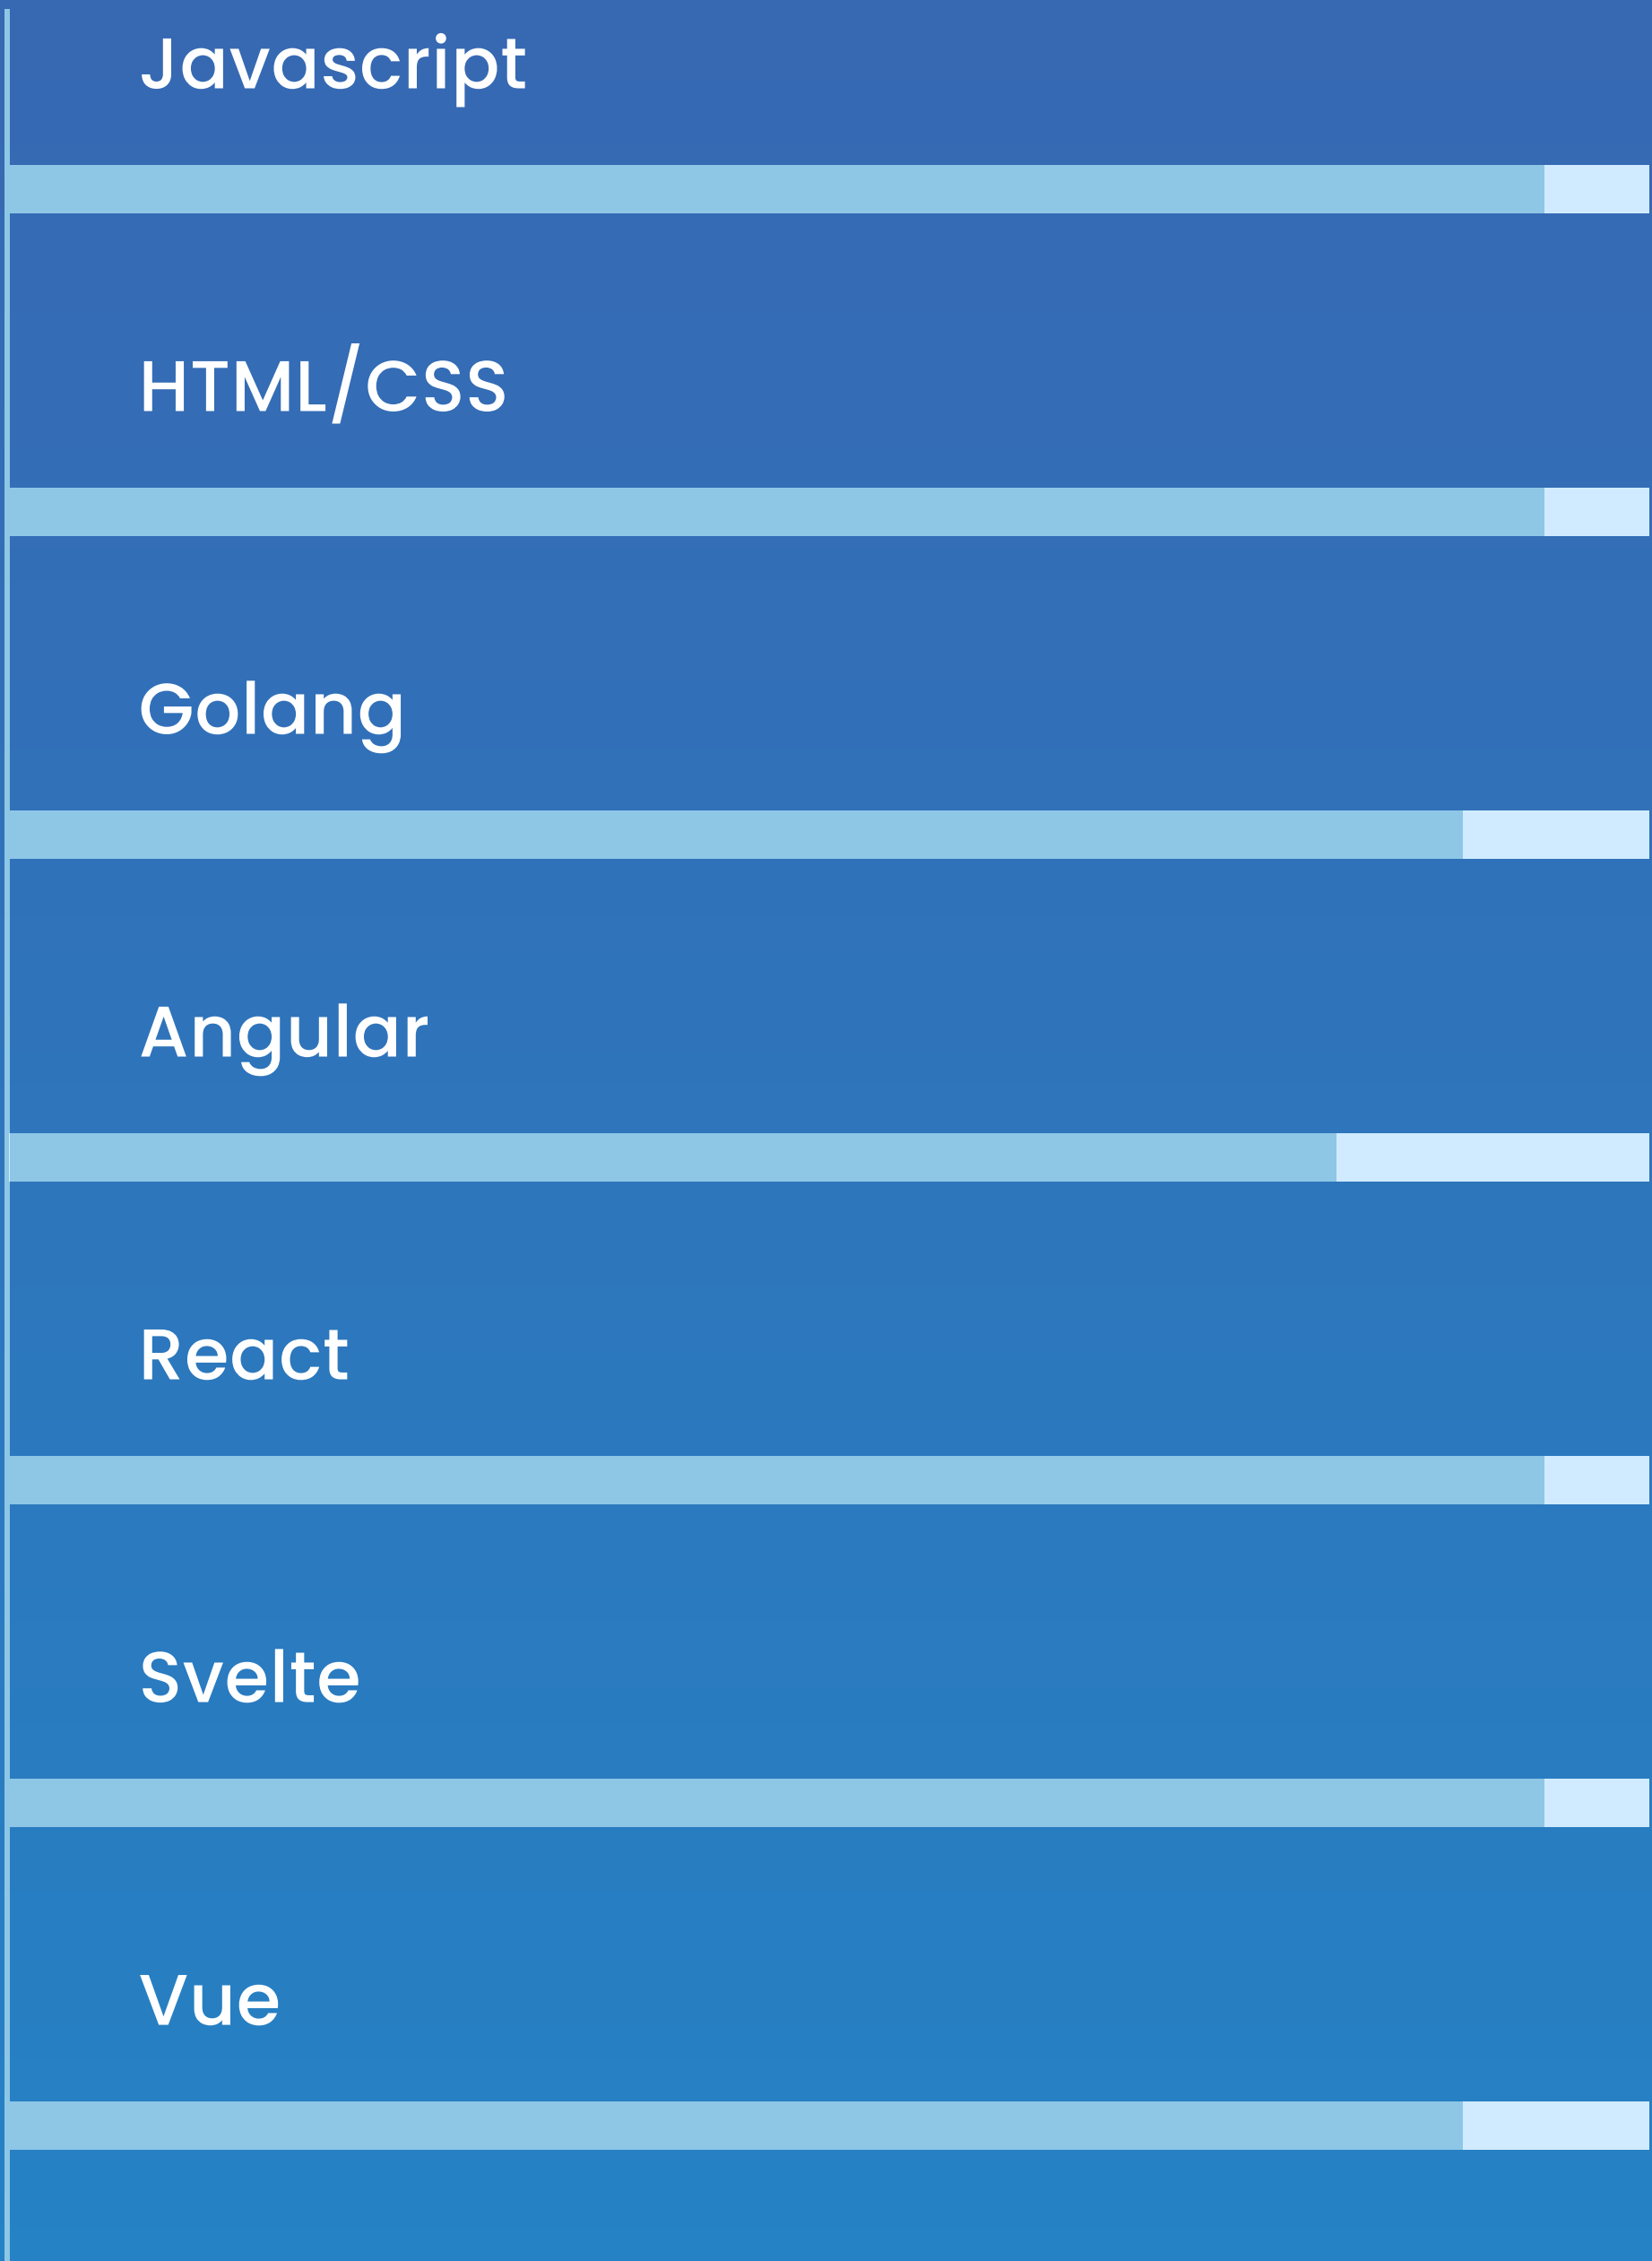

HOBBIES AND INTERESTS

Trying new things to eat and attempt to cook with my girlfriend. Game dev hobbie and passionate learner, as soon as I hear a new technology I HAVE to try it out. I try reading a new book everyweek and a strong philosophy lover.

“

My name is Alvaro Guzman, I'm a self taught Software Developer, I'm currently located in Dominican Republic. I'm a self-proclaimed hardcore Javascript lover, name a front-end framework/library and rest assured I've used the technology. From Vanilla JS to React, Svelte, Angular, Vue or even GopherJs, gotta love that pixel perfect finish.
